

sending a kid to **SUMMER CAMP** *is just the beginning*

People identify three main things that helped them become Christ-like leaders in their communities:

A “life-changing” event (like camp!) first caused them to change their path.

Long-term mentoring relationships caused them to stay on this new path.

An “undeserved” opportunity to lead transformed them into leaders who help others get on the right path.

just **\$100** *will start a kid on this journey!*
